

# DISPLAY COMPONENTS

## CLEVER ACCESSORIES

The components and accessories offered in our accessories range provide solutions which are flexible to create additional impact or will bend or swing to avoid being damaged, while others offer a solid connection to the base.

Alternatively, our design department is available to create tailor made solutions for mounting your messages at the point of sale.

Cost-efficient solutions  
for your everyday needs!

The HL Display accessories product range consists firstly of helpful accessories to mount promotional signs, information and products, coupons or flags close to the goods and secondly of general retail accessories.

## FIXTURES FOR OPTIMAL DISPLAY

Our accessories allow you to display information and products where ever you like, in simple and cost effective ways.

These are small but very useful solutions that let you create the desired attention - whether you clip it to the shelf edge, mount it on a display or hang it from the ceiling.

They are essential tools for successful in-store campaigns and attractive store decorations.

## COUPON PINS

ⓑ

SLIM-HOOK

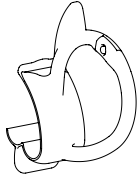

### Coupon holder and merchandising hook for Slimline™

Secure snap-on hook to hold coupons on Slimline™ profiles  
 Provided with a finger grip to release from the Slimline™ profile.  
 Fits both non-angled and 20° angled shelves.  
 Total perpendicular length 40 mm.  
 For coupons with minimum 7 mm holes.  
 Colour: Transparent, others on request.  
 Number per bag: 50.  
 Number per carton: 200.

ⓑ

SLIM-LOOP

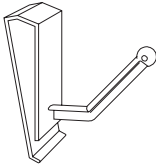

### Coupon and Flip-book holder for Slimline™

Reliable snap-on loop to hold coupons on Slimline™ profiles.  
 The coupons are safely secured by the loop which has a snap-locking mechanism. Coupons are taken-off by a "tear-off" principle.  
 By using two or more SLIM-LOOP's you can easily create selection guides up to any length, just by making holes in your pages.  
 The stopper holds the messages in a maximum 20° flip-up position.  
 Provided with a finger grip to release from the Slimline™ profile.  
 Fits both non-angled and 20° angled shelves. Ring diameter inside 25 mm.  
 For pages with minimum 6 mm holes (we recommend 10 mm holes).  
 Colour: Transparent, others on request.  
 Number per bag: 50.  
 Number per carton: 200.

ⓑ

2200-TF, 2200

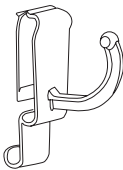

### Coupon pin

Can be mounted on a datastrip with 26 mm label height, over a cardboard edge or taped on a flat surface.  
 Length: 25 mm.  
 Colour: White.  
 Diameter: 4.5 mm. Can be ordered with or without tape.  
 Number per bag: 100.  
 Number per carton: 5000.

ⓑ

2287

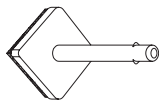

### Coupon hook for Datastrips

A coupon holder that fits all heights of Datastrips.  
 Especially for 26 and 39 mm Datastrips this holder also provides a locking mechanism. Can be used on cardboard edges as well.  
 Color : Semi-transparent  
 Packing : 100/bag

⊕

2281

### Straight coupon pin

Length: 40 mm. Diameter: 6 mm. With tape.  
 Colour: White.  
 Bonding surface: 25x25 mm.  
 Number per bag: 100.  
 Number per carton: 2500.

## Angled coupon pin

Length: 30, 40 and 80 mm.  
Diameter: 4.5 mm (2283-30) and 6 mm (2283-40, 2283-80). With tape.  
Colour: White.  
Bonding surface: 20x20 mm (2283-30) and 25x25 mm. (2283-40, 2283-80).  
Number per bag: 100.  
Number per carton: 2283-30: 5000, 2283-40: 5000, 2283-80: 3000.

Ⓟ

2206,  
2206-TF

## Coupon/Merchandising hook

Most suitable for wire baskets, but it can also be mounted on cardboard and glass edges up to 7 mm.  
2206-TF can also be taped on any flat surface.  
Height: 60 mm. Hook diameter: 6 mm.  
Colour: White.  
Number per bag: 100.  
Number per carton: 1000.

Ⓟ

2387

## Carton hook

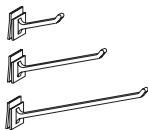

For coupon or X-Merchandising use.  
The hook is simply stuck through the cardboard and locked safely by the additional harpoon pin.  
Packing : 100/bag.  
Colour : White.  
Length : 30 mm on the inside, 35 mm in total.

+

FLEXI-KLG

## Multi-purpose flag holder

Flexible gripper to display shelftalkers on most datastrips – including rails for electronic labels. Number per bag: 50. FLEXI-KLG is an upgrade of the existing model UNI-KLG.

Strong points for the new product are :

Possibility to use it in rails for electronic labels, including profiles from competition (and especially SES carriers)  
Simpler design of the back part : the holder is more friendly-user now  
Stronger design of the front part because the angle-setting device was removed.

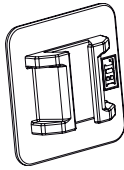

No more risk that the gripper breaks

UNI-KLG will be phased out from the assortment and replaced by FLEXI-KLG, with immediate effect.

B

PC-GADGET

## Fixture backpiece for Shelftalkers

By taping this slot to the backside of Shelftalkers or Price Cassettes, you get access to all the fixing accessories that are available for HL Display's Price Cassettes and Shelftalker frames. Provided with foam tape.

SGT-XL-TF25-

## Sign grip for thicker signs

Holds signs with a thickness of 2 to 5 mm.

Width: 28 mm.

Standard length: 25 or 50 mm. With tape.

Colour: Transparent.

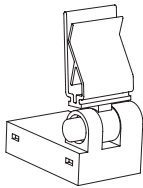

Number per bag: 100.

Number per carton: 1000.

Ⓟ

AS-MGT-SG

## Sign Holder – Adjustable & magnetic

Strong 10 kg magnet for all round use. The possibility to adjust the angle of the sign clip will increase the number of area's where it can be used. The sign grip can be used with a wide range of substrates, from the thinnest paper sheets up to 5,0 mm thick sign in cardboard, plastic, etc.

Packing: 10/bag and 60/box

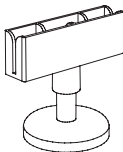

Colour: White magnet house & transparent sign clip.

Material: Heavy duty PC

⊕

MGT-TCB

## Magnetic T holder for Signs

Strong 12 kilo magnet foot to place signs on horizontal metal surfaces. The raised design and small round foot give unlimited placing possibilities.

For 300-1000 gram cardboard up to 1,0 mm thick plastic signs.

Standard colour: Transparent sign holder and metal magnet housing.

Foot diameter: 40 mm.

Number per box: 10/box.

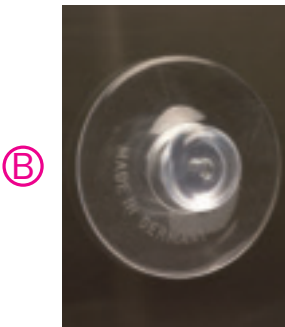

2402-NG

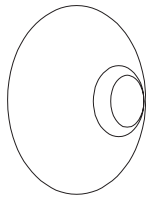

### Eurowobbler for small signs

With tape and spring to wobble small signs.  
Total length : 33 mm.  
Pad diameter : 2 x 20 mm, foam tape.  
Color : White.  
Packing : 100/bag and 1500/box

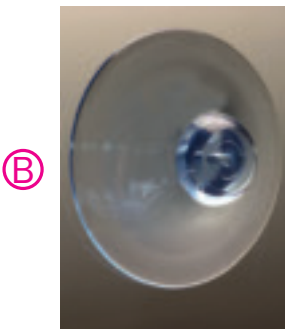

7030

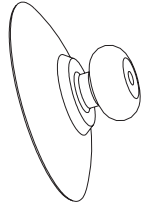

### Suction cup

For attaching signs to glass surfaces.  
Cup diameter: 40 mm. Tab diameter: 15 mm.  
Colour: Transparent.  
Number per bag: 100.  
Number per carton: 1500.

7032

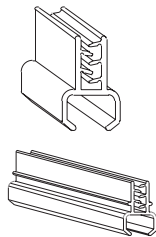

### Suction cup

For attaching signs to glass surfaces. Fits AC-CL.  
Cup diameter: 30 mm. Tab diameter: 15 mm.  
Colour: Transparent.  
Number per bag: 100.  
Number per carton: 1500.

AC-CL-0025, AC-CL-0105

### Sign grip

Holds signs with 0.5-3 mm thickness.  
To be used together with 7032.  
Length: 25 mm. Colour: Transparent.  
Number per bag: 20.  
Number per carton: 1000.

7033

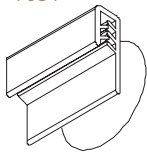

## Suction cup with a metal hook

Cup diameter: 42 mm.  
Colour: Transparent.  
Number per bag: 100.  
Number per carton: 1000.

ⓑ

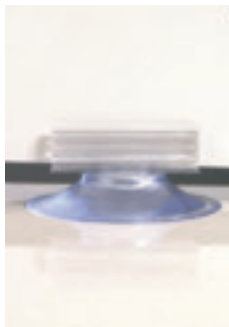

7034

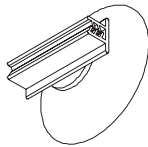

## Suction cup

Suction cup with a grip to hold the message flat against the surface. Maximum material thickness: 2 mm.  
Material: PVC.  
Colour: Transparent.  
Number per bag: 100.  
Number per carton: 1000.

⊕

7035

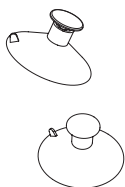

## Suction cup

Suction cup with a grip to hold the message at a straight angle against the surface.  
Maximum material thickness: 2 mm.  
Material: PVC.  
Colour: Transparent.  
Number per bag: 100.  
Number per carton: 500.

ⓑ

SC-PIN

## Suction cup with sign holding pin

Messages are quickly attached to glass surfaces. The pin will punch through materials like paper, cardboard, thin plastics and similar. When a thicker plastic has to be attached it is recommended to have a hole in the message (minimum 4,0 mm in diameter).  
Suction cup diameter: 45 mm (in mounted position)  
Color: Transparent  
Number per bag: 100  
Number per box: 1000

## ➔ CEILING DISPLAYS (SUSPENDERS)

⊕

CABLEGLIDER

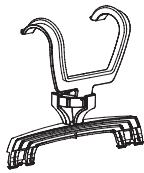

### Height adjustable cable suspension

For quick and user friendly installations of Over Head systems.  
For releasing and adjusting - just push the top pin. To lock – just let the top pin go. To be used with the cable AL-WIRE 1,0 mm.  
Approved for 20 kg.  
Number per bag: 50.

Ⓑ

SKYGRIP

### Universal and twistable "drop and hang" device

This easy-to-use hanger gives you an unrivalled number of reliable sign hanging solutions. Adjustments can be made using the SKYROD by simply lifting up or down while standing on the retail floor. The rail grip is compatible with most available overhead profiles on the market, as well as with ceiling grids. The sign grip can be twisted and locked into several positions with steps of 45 degrees. SKYGRIP directly holds poster sleeves (DBA-SG) or signs, but also the poster holder GRIPPER or the aluminium poster profiles MINI-SNAP, MINI-TRAK and LONDON. To suspend HL Frames, use the FRAD-SG adapter.  
To suspend poster sleeves, GRIPPER or MINI-TRAK.  
Colour: Transparent.  
Handles maximum weight of 3 kg.  
For poster sleeves with 2 x 5 mm holes, cc 195 mm.  
Maximum distance from upper edge of the hole to upper sleeve edge 5 mm.  
Number per box: 20.

Ⓑ

SKYROD

### Telescopic rod to handle SKYGRIP from the floor

Using the telescopic SKYROD, overhead signage can be easily adjusted while standing on the retail floor. SKYROD is specially designed with an adapter to "drop and hang" the SKYGRIP. The telescopic pole is easily locked in different lengths by twisting the pipes.  
Length 135-375 cm, 3 telescopic pipes.  
Colour: Natural anodized aluminium.  
Packaging: 1/bag and 3 per outer carton box.  
Number per bag: 1.  
Number per carton: 3.

Ⓑ

GRIDSNAP

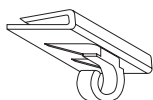

### Ceiling clip with nylon cord

The GridSnap has a snap- lock mechanism so that it simply can be snapped on the metal grids in inner-ceilings. The more weight you suspend from this ceiling clip, the firmer the grip will be around the grid profile.  
The integrated nylon cord is 1000 mm long and can be length adjusted in 25 mm steps.  
Packing : 50/bag (40 bags in a box)  
Colour : White  
Material : PP

Ⓑ

Number per carton: 10.

⊕

280

SKY-CLIP

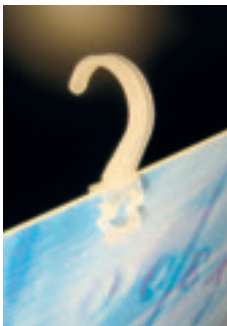

## Snap close hook for poster sleeves

This hook can be snap-locked to signage and poster sleeves provided with holes (DBA-MG, DBA-2H or DBA-SG), so that handling is possible by holding the signage at the bottom. Single use is possible as the SKY-CLIP will always return to a flush position. Click on the small super magnet MGT-16 for ceiling suspension from metal ceiling grids. SKY-CLIP will hold substrates with a thickness of 0.1 to 2.0 mm.  
Colour: Transparent.  
Number per carton: 50.

Ⓑ

SKYCLIP-MEGA

**XL snap hook – “drop & hang”**

Can be hooked onto MINI-TRAK and all other OH-rails with a maximum 25 mm diameter. For signs with minimum 3,0 mm large holes. Can also be used with up to 14,0 mm metal eye-lets (outer dimension). Ideally the upper hole edge should be 8,0 mm from the upper sign edge. Maximum substrate thickness 3,0 mm.

Packing : 50/bag.

Colour : Frosted transparent.

Ⓑ

HL STAPLER

**Hook and Loop stapler**

This ingenious stapler machine is the perfect tool to keep the store environment neat and clean. Instead of using tapes or other “home made” solutions that will give a messy impression, now loops or hooks can be attached to existing signage and that will change in-store signage for ever.

The HL Stapler (Hook & Loop stapler) can be used with the common signage and poster sleeve plastics up to 0,8 mm or 2 x 0,4 mm thickness. Also all normal paper qualities and can be stapled and corrugated card board can be stapled up to 6,0 mm thicknesses.

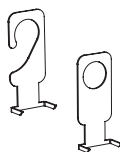

Packing : 1/box

Colour : Metal, White & Blue.

Ⓑ

STAPLES, HOOK & LOOP

**Suspension for staples**

To be used with the HL Stapler. A simple and quick way to add hooks or loops to signage and poster sleeves. The loops and hooks are compatible with a wide range of HL products. For more information see further on in this News letter.

The Hook-Staples can be twisted for either flush or perpendicular use.

Loop-Staples

Packing : 100 box.

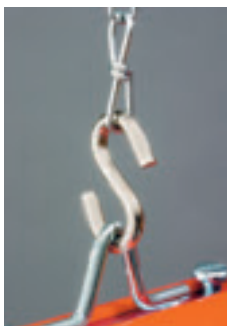

Colour : Shiny metal.

Hook-Staples

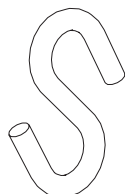

Packing : 100 box.

Colour : Shiny metal.

Ⓑ

ST-HOOK 25
