COSMELINE™

HL Displays new slim and sleek multifunctional system, especially designed for drugstores and pharmacies. This unique profile offers several functions from basic to advanced applications such as:

· Individual price labelling
· Coloured segmentation
· Merchandising accessories
· Branding accessories

« Increase the visibility of your offer »

ELECTRONIC PRICING

Electronic pricing saves time and thus labour cost. It also avoids costly mistakes – and consumer dissatisfaction – by maintaining price accuracy at all times. HL Display has been supplying carrier solutions for electronic labels (ESL) since the advent of the technology, working closely with major ESL suppliers. Our wide product range fits most shelving systems on the market, as well as peg-boarded and Fruit & Vegetables categories.

NEW PRODUCT
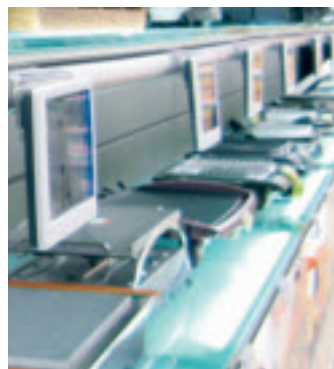

THE ULTIMATE DATASTRIP SYSTEM - SLIMLINE™

Complete shelf edge communication system that makes the product offer clearly visible, and the price information's readable.

Benefits with Slimline™:
· Clear information on the shelf.
· Attractive design.
· Flexible solutions for price-, product- and campaign information.
· Save space between the shelves.
· Usable for both paper or electronic labels.
